- Municipal Account Auditing
- Tenant Account Auditing
- Meter Reading Services
- Meter Verification
- Electrical Component Breakdowns

Our team consists of:

- Highly qualified electrical engineers.
- Metering technicians that specialize in the field of metering.
- Meter readers to do the readings on all the meters.
- Internal auditors to audit accounts for correct billing to various tenants / businesses.
- Credit Control Department for the collection of outstanding debt.
- Debtors Department to ensure that all accounts are sent out correctly.
- IT Department that maintains our own billing system, which was designed to do billing for meter readings & utility related charges. Our system was developed according to our client's specific needs, enabling them to view their consumption history, payments and their latest billing figures. The system is web-enabled, meaning you can be anywhere in the world and still do an enquiry on a consumers account or run the billing for that day if you have access to the internet.

OUR SHAREHOLDERS AND DIRECTORS:

Tokkie Langeveldt

Tokkie is one of the co-founders of Vula Energy. Tokkie obtained his BSc Eng (Elec) degree at the University of Pretoria. He is registered as a Professional Engineer, and he is also a Certified Energy Manager and recently qualified as a Renewable Energy Professional. Tokkie also has his Government Certificate of Competency and is also a Principal Estate Agent.

Marais Langeveldt

Marais is one of the co-founders of Vula Energy. His leadership qualities have been evident in this organisation. Marais is a Certified Energy Manager, a qualified Electrician, and has over 30 years' experience in the utility and energy management field.

VULA ENERGY is very serious about providing a service of top quality. With service delivery being one of our differentiating qualities, we have a strong focus on adding value to the client's property or portfolio not only through accurate work, but also through building a good relationship with consumers, the property management company, and the landlord.
